

# NanoBuzz

## Summary

Be a part of the buzz! See what's new with nano.

NanoBuzz is a web-based kiosk featuring exhibit-ready access to current nanoscale science, technology and engineering and emerging research in the news. Discuss issues, ask questions, take a poll, meet scientists, and post your own stories, images, questions and comments.

NanoBuzz requires a web connection to automatically update the station with current nano news and to allow visitors to send emails from the kiosk.
