

We can work together to make our communities more sustainable now and in the future!

Change everyday habits

**Draw or write
your ideas!**

What changes (activities or lifestyle choices) can you make to help create a healthier ecosystem? Are there more balanced ways to eat, work and have fun?

We can work together to make our communities more sustainable now and in the future!

Teach and learn!

**Draw or write
your ideas!**

What do you need to know more about in order to live in balance with other people and with your non-human neighbors? How can you share these ideas with others?

We can work together to make our communities more sustainable now and in the future!

Design a new structure or technology

**Draw or write
your ideas!**

Design a new structure or system to help create a healthier ecosystem for people, animals, and the environment. Is there a machine, app, or other new technology that could help people change how they grow food, get water, recycle materials, or harness energy?
