It's time to lighten up! Camp Coordinator Meg Benedetti helps you brighten your space with a paper lantern of your own creation. While you're working think about what materials stick and which ones didn't. And always be creative! We'd love to see your lanterns when they're finished. Share them using the #AmazeumYOU or post them in the comments.

# Final digital engagement tips

- **Try keeping things light**—don't be a perfectionist.
- **Do your best to be prepared for technical errors**—they will happen.
- **Use #nisenet and share with NISE Net** facebook, twitter, & linkedin accounts when possible—so we can highlight what you do.
- **No need to reinvent the wheel**, start with existing resources and if you don't have capacity for this programming there is a lot going on to share with your audience!
