

Intro to Nanomedicine Video

Summary

What is Nanomedicine?

“What Is Nanomedicine?” is the introductory video for the *Nanomedicine* exhibit package. The structure includes a text panel and a narrated and captioned 2.5-minute video that plays on demand in either English or Spanish on a 32-inch LCD screen. The video's colorful animation and researcher commentary complements the accompanying text panel to provide a brief overview of some of the basic ideas and goals of nanomedicine.

Learning Goals

- Nanomedicine is the application of nanotechnology to medicine.
- New medical treatments are being developed with the tools provided by nanotechnology.
- New treatments will need to be tested before they are available to the general public.

Exhibit Details

Audience: All ages

Exhibit Format: Stand-Alone Exhibit Component
Part of *Nanomedicine* Exhibit package

Exhibit Dimensions: 54”w x 31 ½”d x 78”h
