

EXAMPLES OF SUSTAINABILITY
Talk to a volunteer about
in your community

ASK A QUESTION
Find a volunteer and
ask about sustainability

SHARE YOUR IDEAS
about ways you can help create a
more sustainable world

TALK TO A VOLUNTEER
about sustainable solutions

Collect as many stamps as you can!
At the activity tables, ask a volunteer to stamp your
passport each time you:

Sustainability means healthy people, communities, and environments, now and in the future. Sustainability science finds innovative responsible solutions to major global challenges.

sustainABLE

The future is in your hands

Sustainability in Science Museums is supported by the Walton Sustainability Solutions Initiatives at Arizona State University. The SustainABLE activity kits are a collaboration of the Walton Sustainability Solutions and the Center for Engagement and Training in Science & Society at Arizona State University, Science Museum of Minnesota, and Sciencenter. SustainABLE kits are distributed by the National Informal STEM Education Network.
