I Spy Nano!

We use different scales to measure things that are different sizes.

NanoDays™
The Biggest Event
for the
Smallest Science!

whatisnano.org

I Spy Nano!

1. Each player chooses a game board.
2. Place the deck of playing cards in the center, purple side facing up (picture side down).
3. Read the statement on the back (purple) side of each card, then turn it over.
4. Look at the objects on the front of the card. Each game board has one of these objects on it.
5. All players search their boards to find an object that's identical with an object on the card.
6. The first person to find their object says “Nano!” and takes the card.
7. Play continues with the next card in the deck, until no cards remain in the center pile.
8. Whoever has the most cards wins!

We use different scales to measure things that are different sizes.
